CONTAINER

01

Keep your foods in "LocknLock" food storage container

"LocknLock" deeply researches and studies different cultures and lifestyles. Based on our analysis, we created a storage container that can be safely and conveniently used all over the world. With our own production plant, we can ensure premium quality products. Our patented hollow silicone seal, our LocknLock Classic 4-sided locking mechanism as well as our Bis-Free modular containers that are easy to organize with a stable stacking method are some of the features that we've developed. LocknLock products are made only from the safest materials that are harmless to the body such as BPA FREE plastic, tritan, and heat-resistant glass. Consumer needs are our highest priority which allows us to diversify our product range from small baby food containers to large cake containers.

WAVE

Unique design with a calming feel. The 'wavy pattern' on the floor of the container reduces surface contact, keeping food fresh longer. After freezing, the 'wavy pattern' of the floor prevents food from sticking to the bottom. With nesting and modular capabilities, they can be stacked and neatly stored.
